

CURLEW

Frost-resistant yield-performer.

Benefits

- ✓ Excellent overwintering with good frost tolerance and regeneration capacity.
- ✓ Improved yield potential and health performance.
- ✓ Medium crop height with good standability and fast row closure for strong weed suppression.
- ✓ **Commercial seed available from autumn 2025.**

8 Grain Yield

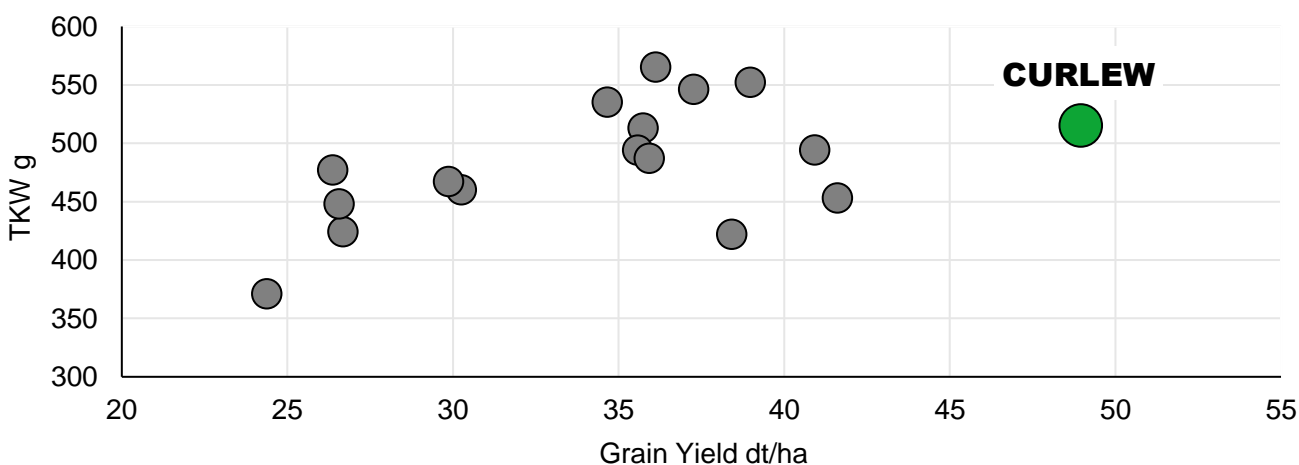

6 Protein Yield

8 Standability

Classification based on German Federal Plant Variety Office 2024 and own observations.

CURLEW – Breeding progress in winter field beans.

CURLEW delivers a significant improvement in grain yield combined with improved plant health. The agronomic package of this new variety is rounded off by its excellent regeneration capacity in spring and its good standability.
