

ICONIC

Robust stability supports high yield and quality.

Benefits

- ✓ Very high grain and protein yield potential confirmed in official trials.
- ✓ High standability forms a stable crop.
- ✓ Excellent crop quality for further value creation.

9 Grain Yield

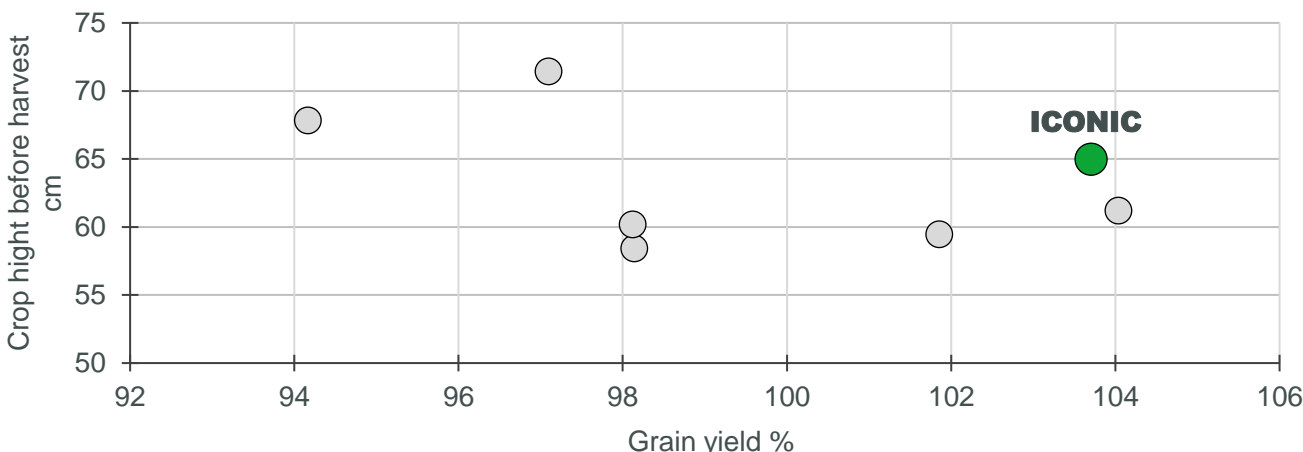

9 Protein Yield

7 Standability

Classification based on German Federal Plant Variety Office 2023 and own observations.

ICONIC: New benchmark for grain and harvestability.

ICONIC offers a very high yield potential and at the same time a higher crop height for the best threshability at this yield level. This has been confirmed in official trials over the last few years.

Source: Germany – German Federal Plant Variety Office. Official trials Ø 2021-2023, only three years tested varieties presented. n = 27 locations; Grain yield rel. 100% = 44,8 dt/ha (ALVESTA; ASTRONAUTE)
